

4-Port USB 2.0 Hub

Model Number: UH04G

General Descriptions

UH04G is a 4-Port USB 2.0 Hub with one upstream facing USB 2.0 port (Type B connector) and four downstream facing USB ports (Type A connector). UH04G uses advanced Gensys Stand-alone USB Hub Controller solution with complete set of industry standard features for high-speed data transfer.

This product is made in ISO9001 approved factory. UH04G 4-Port USB Hub complies with FCC part15 regulations and CE approval.

Features and Benefits

- Compliant with USB specification Rev. 2.0 and USB power management requirements
- Compliant with Advanced Configuration and Power Interface (ACPI), and OnNow
- Plug and play compatible for easy installation and configuration
- Supports Bus-powered or self-powered capability with the suspend mode
- USB Hub supports high-speed (480 Mbps), full-speed (12 Mbps), and low-speed (1.5 Mbps) devices
- USB Hub supports up to 4 downstream facing ports, Port 3 and 4 can be disabled if they are unused
- Supports individual or global overcurrent protection support
- USB traffic indication (GoodLink LED) on the upstream facing port

Specifications

| | |
|------------------------------|---|
| Data Connection | Compliant with USB Specification Rev. 2.0 and maximum data transfer rate up to 480 Mbits/s USB ports support high-speed (480 Mbps), full-speed (12 Mbps), and low-speed (1.5 Mbps) devices |
| Interface | One upstream facing port with USB type B connector Four downstream facing port with USB type A connectors |
| Power Consumption | 5W Max, @2A |
| Downstream Port Over Current | Self power 500mA max for each port Bus power 100mA max for each port |
| Operating Temperature | 0°C ~ 45°C |
| Humidity | 5% ~ 95% (non-condensing) |
| Storage Temperature | 0°C ~ 70°C |
| Supported OS | Windows 98SE, ME, 2000 and XP |
| Minimum System Requirements | Pentium compatible processor 200 MHz and above Minimum 32 MB RAM Minimum 30 MB available hard disk space CD-ROM drive USB connector |
| Regulations | FCC part 15, CE |
